# PROLICHT MAKES A DIFFERENCE

If you promise your demanding clients bespoke, high-tech, quality products, you can't have them made just anywhere. We manufacture our products where the best trained technicians, engineers and designers find themselves at home: right in the middle of the Tyrolean Alps.

At the end of the day, it is their skill that makes a difference. And it is their expertise that has made PROLICHT one of the world's most successful premium manufacturers of architectural lighting concepts. Sustainably produced and custom made in Europe.

G-BOARD ROUND PLAY

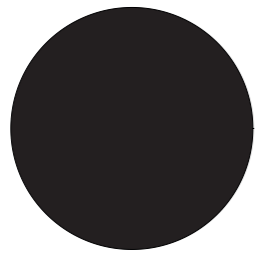

## G-BOARD

Kinetically graphic light compositions.  
 The modular ceiling elements G-50 BOARD are surface-mounted and can hold up to four SNOOKER or HANGOVER lights with GRAVITY LIFT for flexible height adjustment of the lights. Combined with each other, the G-50 BOARDS transform any ceiling into a graphic pattern. Covers are available for openings in which no luminaire is installed.

## COLOR MAKES A DIFFERENCE

Unique colors and finishes, with infinite combinations, enable a holistic interior design concept to be completed or certain highlights to be created with our 25 PROLICHT colors. RAL Classic or any other special color is available on request.

INSPIRATION | SIMONE EISATH

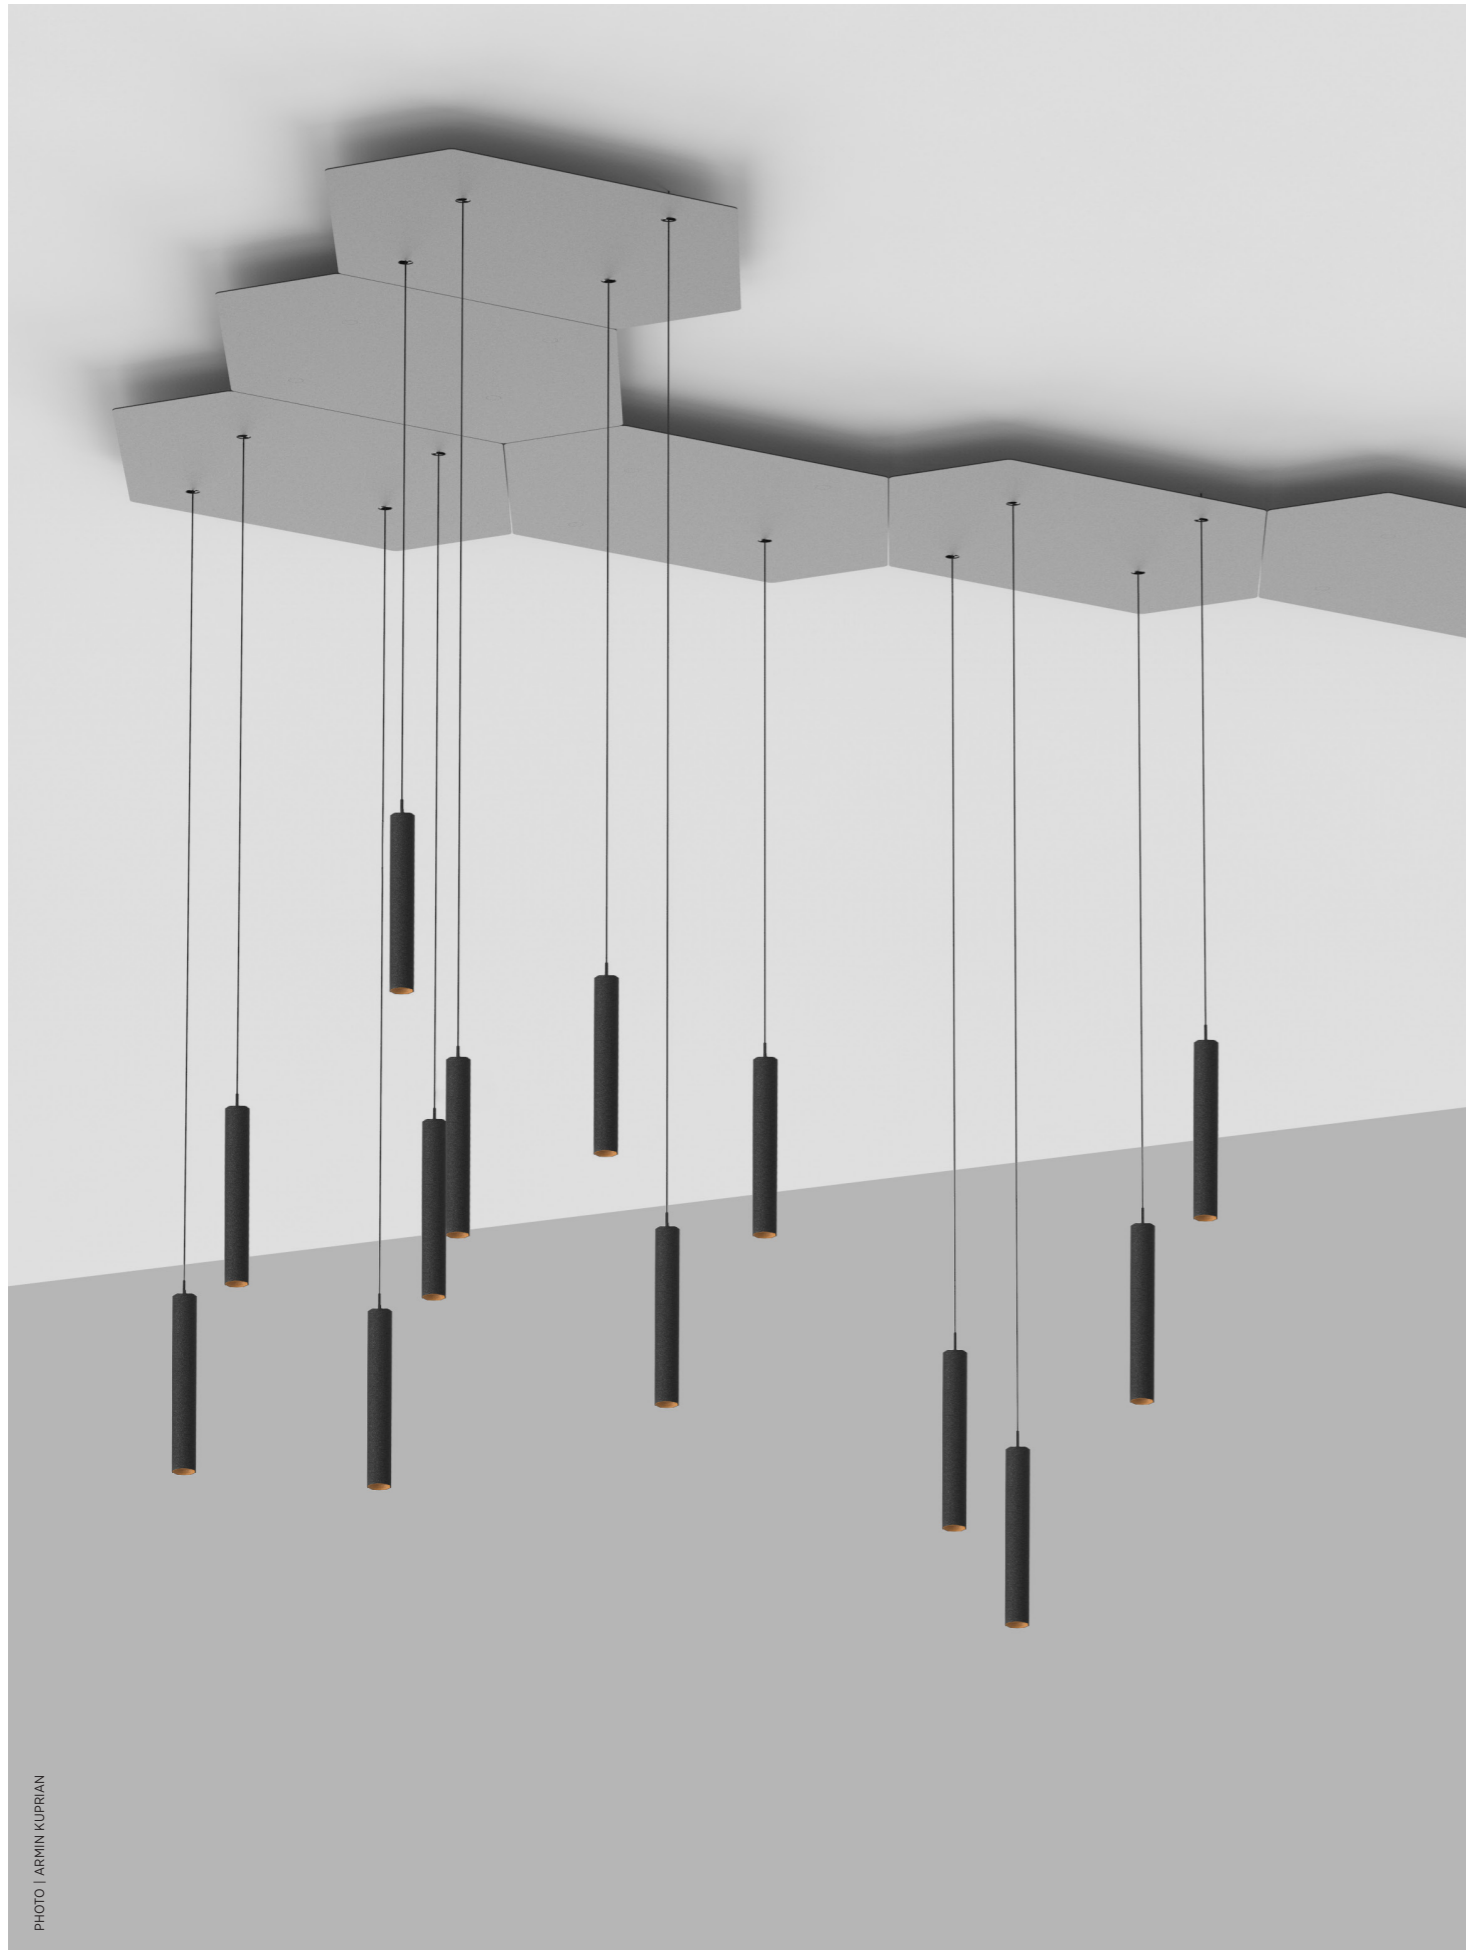

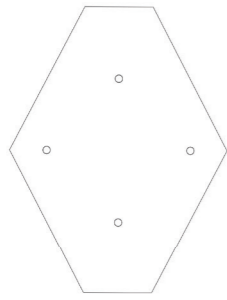

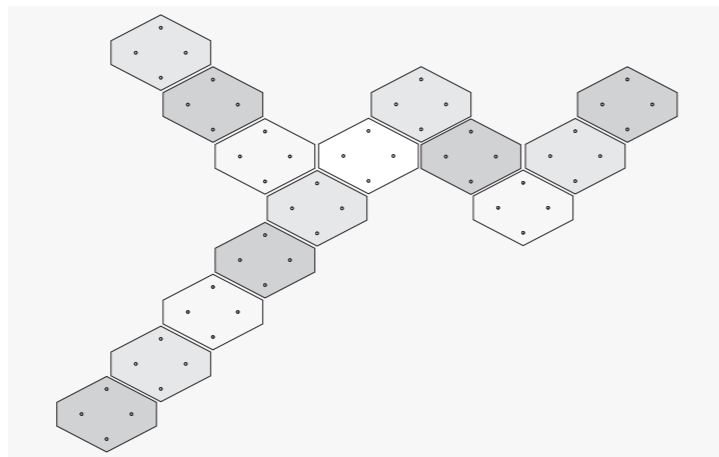

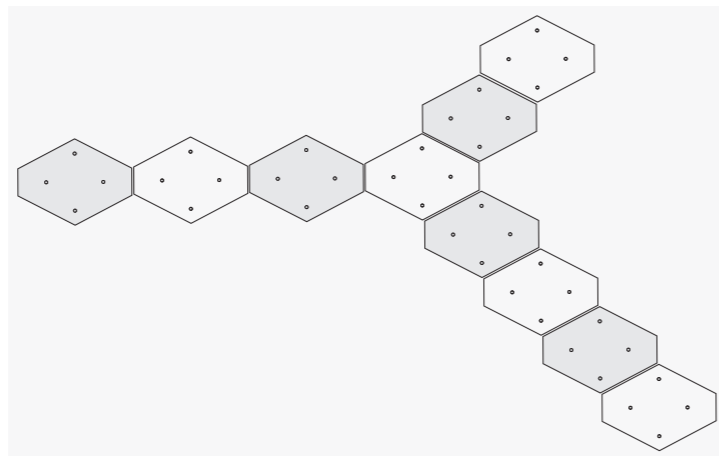

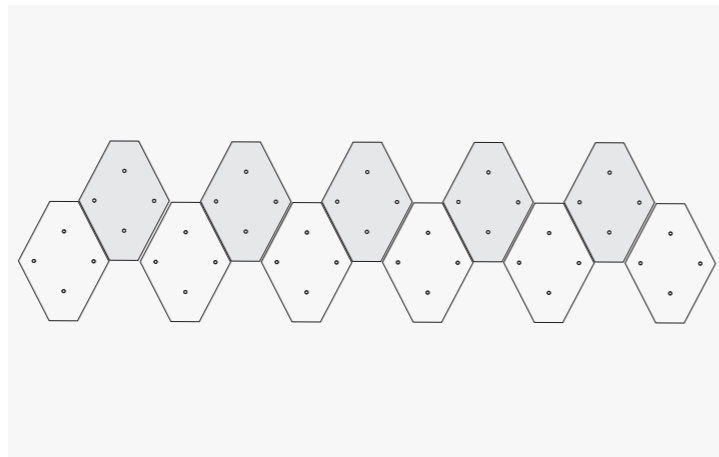

PHOTO | ARMIN KUPRIAN

# G-BOARD

With our GRAVITY LIFT system the height and position of the pendant luminaires can be adjusted in the easiest and most flexible way. Variable arrangements create new spatial structures and light compositions, time and time again. The illumination can be adjusted to changing requirements of flexible spaces without the need for any tools.

MOUNTING OPTION: SURFACE AND SUSPENDED MOUNTING

G-BOARD ROUND

G-BOARD ROUND PLAY

## G-BOARD ROUND

As a single element, in a dual combination, as a strict geometrical shape or as an endless flowing arrangement: Our new G-BOARD ROUND and ROUND PLAY set no boundaries to your creativity. In addition to our powerful SNOOKER and INVADER HANGOVER inserts, the lighting system can now also be furnished with the iconic MELT and OPAL pendants by Tom Dixon to offer even more possibilities to create the lighting atmosphere you need.

MOUNTING: SURFACE MOUNTING ONLY

### G-BOARD | MODELLING WITH CRAWITY LIFT

WITH GRAVITY LIFT the height and position of the spherical luminaires can be adjusted easily and flexibly. The variable arrangements (MODELLING, SERVING) create new spatial structures, time and time again. All the inserts consequently respond wonderfully to changing lighting requirements.

HANGOVER | COLOR 02 BLACK VELVET | KORONA CONE 02 BLACK VELVET

**KORONA CONE**  
The deep reflector directs the light effectively past the cone without changing the light color. The cone can be customized in any of the 25 PROLICHT colors.

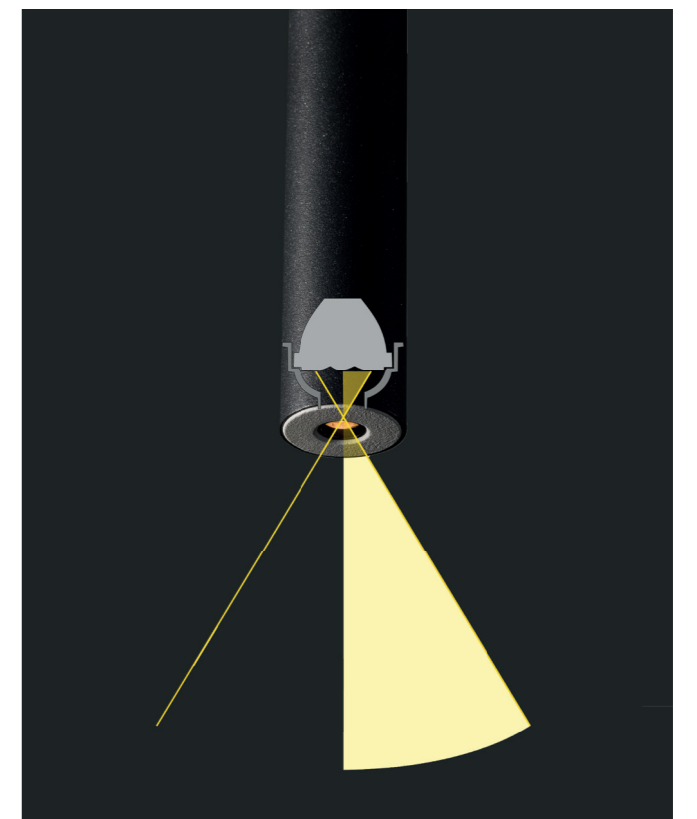

**SHINE RING**  
The luminaire can also be equipped with a luminous ring in one of 6 differ colors. KORONA SHINE creates colorful accents and atmospheric HIGHLIGHTS.

**MICRO DOT**

The integrated lens optics allow beam angles between 24° and 58°. The available variants with MICRO DOT technology offer maximum effects. JUST LIGHT - NO GLARE.

## THE NEW SYMBOL OF CONNECTIVITY!

Imagine a world where all your devices seamlessly work together.  
The idea is simple. The impact is powerful.

## OUR PRODUCTS ARE READY!

Configure now your MATTER enabled lighting solution.  
PROLICHT is offering as one of the first companies in the lighting industry, the standard matter for more than 1.000 light fittings in over 50.000 possible configurations. From now on our downlights, tracks and luminaires can be controlled together with your other devices in your smart home via just one interface.

## THE FIRST SMART LIGHTING SHOWROOM IN THE WORLD

Learn about all the ways you can integrate the new standard into your project and make your lighting smart.  
You want to visit us? We are looking forward to welcome you in the heart of the Alps!

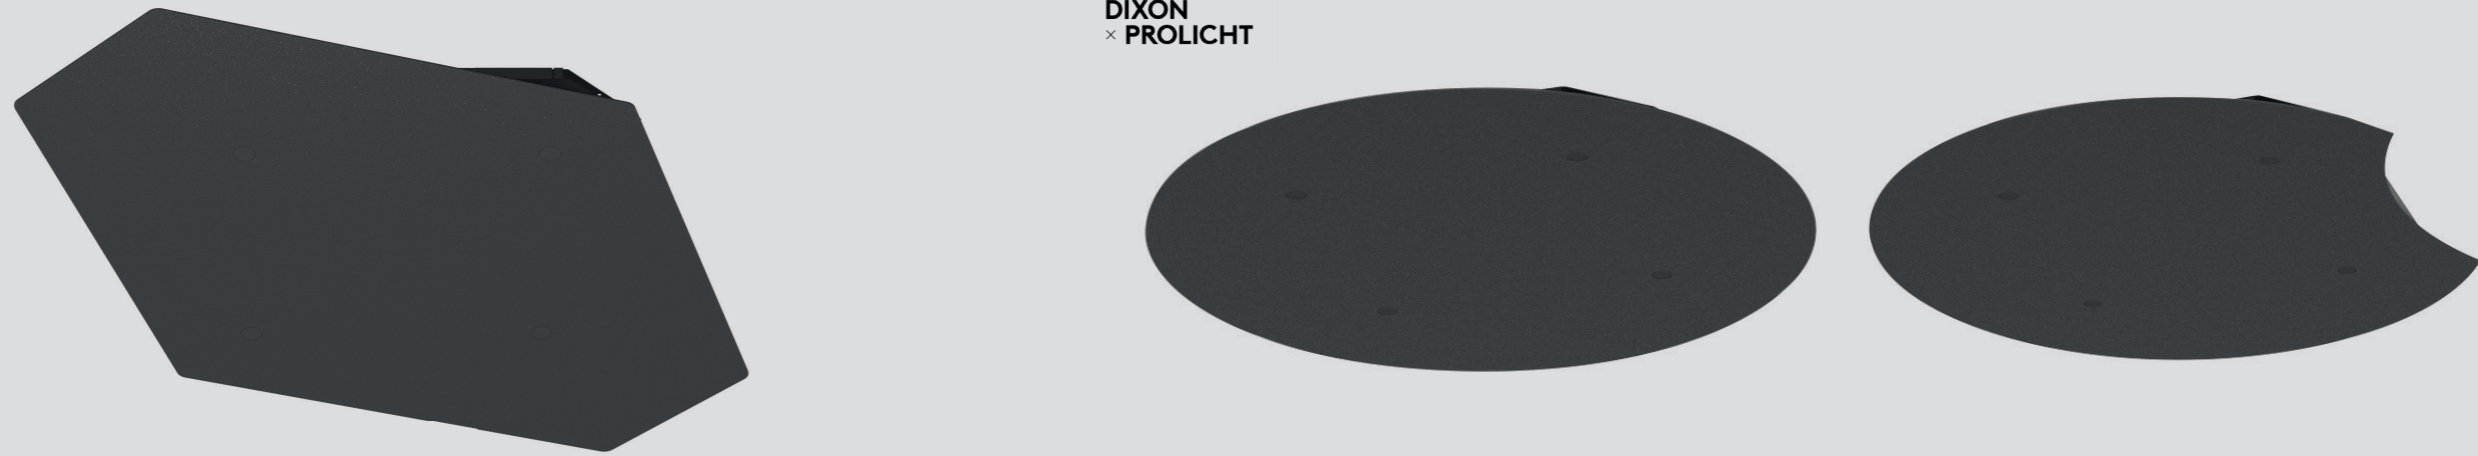

All PROLICHT Matter light fittings work natively with Apple Home, Google Home, Amazon Alexa and Samsung SmartThings, and with many other home automation control systems.
